The Sound

A synthesis of powerful club energy and live, expressive music. Intelligent, atmospheric songs with live guitars and synthesizers

01. Original music with a focus on songcraft

Deep, emotional electronic landscapes where melodic downtempo, organic house and synth-driven textures meet strong vocal lines

02. Live performance

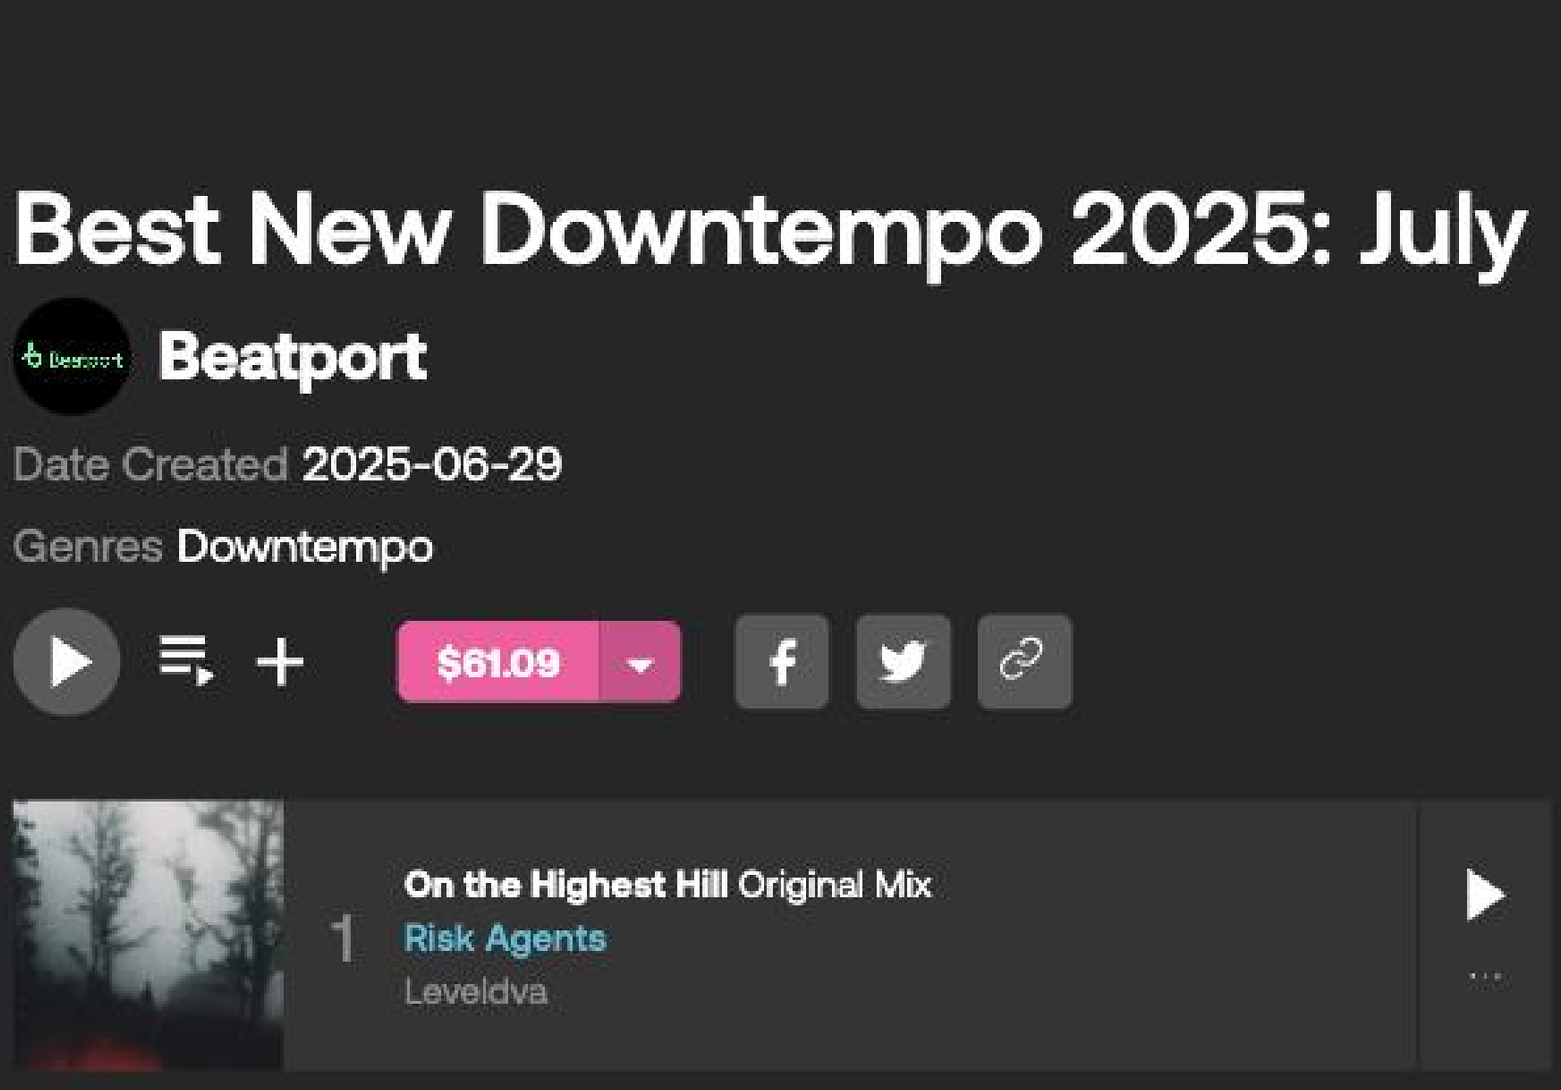

A defining strength of the project. Risk Agents perform fully live, with an improvisational element — unlike many electronic acts relying on DJ-only formats

On stage at the same time

- Synthesizers creating a modern, club-driven atmosphere
- Live guitars adding warmth, intensity and drive
- A strong, expressive baritone vocal — the signature element of the project

First Achievements

The debut Risk Agents track “On the Highest Hill” reached #1 on the Global Downtempo Chart (July 2025), only months after the project launched — confirming strong international demand

01. Releases

Since launching in 2025, the group has released music on such respected labels as LevelDva and Monada (Germany)

02. Sold-out live performances in leading Moscow venues

These are among the most influential electronic music spaces in Moscow — the local equivalents of London’s curated, discerning underground venues

Geshtalt

03. Collaboration with top promoter teams

These partnerships indicate the project’s position within the upper tier of the local club scene
